What is intended as a peaceful weekend away from it all turns out to be anything but in this picture book full of witty social observation. The girl narrator and her family find themselves sharing what they hoped would be a quiet beach with a busload of kids on a school trip and a motor-bike gang, 'The Disciples of Death'. However, the holiday is not the disaster it might have been for the Disciple are helpful and friendly, and there is entertainment aplenty with the school kids. The hilarious seaside frolics of the young, and the young-at-heart (the seaside has that effect) are eloquently illustrated by the author.
