Kelly is pleased when the attractive Simon moves in next door but the reasons for his constant wearing of gloves and other mysteries make her realise that he is, surprise, a werewolf! The horrors build up nicely to a climax and then Johnson presents a new version of the myth - being a werewolf is a special gift; they work to help humans. The book cleverly creates sympathy for Simon and understanding of what happens to him in the face of blind prejudice reacting to the unknown or different. He is forced to leave but we are left not with the gothic horrors but the sadness of a good person being forced to hide. Cleverly done.
