This is the fourth book in the Leehampton series featuring five teenagers and their battles with life, love and parents. Gender and ethnicity are equitably represented and the storylines revolve around topical issues.

Rushton has an ear for the nuances of dialogue and her ability to recreate embarrassing situations is amply demonstrated here. Glibly happy endings are not the order of the day and the harsher aspects of real life will strike familiar chords with beleaguered young people. This book is funny, realistic and reassuring, by turns: the snappy title and affordable price make it an appealing package.
