More adventure afloat on the river and again small rodents feature. Tim Mouse and his friend Mr Brown, the hedgehog, find a message in a bottle and set off on their raft to rescue Willy Frog from the wicked rats. This they finally do but not before a highly eventful voyage. Alternate spreads of colour and black and white pictures full of humorous detail together with a longish text with plenty of dialogue should hold the attention of the young listener or reader in what I find hard to believe is the first paperback edition of a story first published at the end of the sixties; so Tim and his friends should be entertaining a whole new generation of children.
