The events related in this set of light and enigmatic little yarns are fleeting episodes that leave barely a ripple on the stream of history. A garden gnome tumbles into a pond, a sausage shaped omnivore drifts into our world then out of it again; two boys get into difficulties attempting to retrieve a message in a bottle from a river. Yet the author manages to imbue these episodes with such vivid hues of mystery and humour that an audience of 8-year-olds were fascinated and delighted by them. An excellent collection for storytime, and for newly independent readers to enjoy on their own.
