0

Yet another gloriously funny addition to the Little Vampire series - if you're hooked, this will delight you; if you don't know them, there are treasures in store. With sympathetically short chapters for those new to reading, this is a solid 'real' book that can be read alone or shared with equal pleasure. Masses of place names make everything sound true and there are coincidences everywhere. It makes you feel delightfully and safely scared.

Running Order:

71
